

triLIFT 2.0

LUMENIS

MUSCLES DEFINED,
BEAUTY REFINED.

STIMULATE
THE MUSCLES
FOR A TONED
AND LIFTED LOOK

NOW FOR FACE & BODY

triLIFT 2.0

MUSCLES DEFINED, BEAUTY REFINED.

Demand Is Expanding Beyond Skin

Patients are seeking mid-face lifting, muscle definition, and comprehensive Face & Body treatments. An evolution further accelerated by GLP-1-driven demand for lifting and toning.

Clinically Proven Muscle Technology

X3-stronger muscle activation with integrated Face & Body stimulation and proprietary FibroBoost technology.⁷

Built for Practice Growth

Fast ROI potential and clear differentiation.

Dr. Manuel A. Lopez, MD
Triple Board-Certified Facial Plastic
and Reconstructive Surgeon
Advanced Aesthetics, San Antonio, TX

“As a plastic surgeon, I was excited to find an effective, non-invasive treatment that targets facial muscles without surgery. triLIFT has expanded my patient base with outstanding results and strong profitability-I’ve already purchased three devices.⁸”

ADDRESS SIGNS OF AGING AT THE MUSCLE LEVEL

As we age, the facial and body muscles weaken – creating a saggy appearance. Unlike traditional treatments, triLIFT'S Dynamic Muscle Stimulation technology (DMSt) goes beyond skin-deep to address aging signs at the muscles for a naturally toned and lifted look.

Contour and define the jawline.

Smooth smile lines and wrinkles.

Tighten the undereye area.

Sculpt the abdominal muscles.

Lift the glutes.

Tone the arms.

LEVERAGE DYNAMIC MUSCLE STIMULATION TECHNOLOGY (DMSt™): FOR A TONED AND LIFTED LOOK

Muscle tone, Naturally restored

Long-term reconditioning that improves resting tone through neuromuscular re-education.

Customized, Full-Layer Reach

Targets the entire muscle layer with precision settings tailored to each treatment area and patient.

Beyond Limits

Delivers consistent, high-intensity contractions that surpass what voluntary exercise can achieve.

CLINICALLY BACKED

+18.6% Muscle thickness¹

+49% Dermal thickness²

3X Natural hyaluronic acid production³

-30% Reduction in wrinkles⁴

-68% Less cellulite dimpling over time⁵

94% Improvement in muscle tone & lifting⁶

“
triLIFT 2.0 revolutionizes our approach to the face and body by simultaneously targeting muscles and skin. This delivers noticeable facial lifting and enhanced body contour, firmness, and tone, with visible, natural, long-lasting, and non-surgical results.⁷”

James Chelnis, MD
Plastic Surgeon and Owner
Manhattan Face & Eye, New York, NY

FIBROBOOST™: BOOST COLLAGEN, ELASTIN AND HYALURONIC ACID

by activating fibroblasts to restore skin structure and firmness

Ultra-Thin Electrodes

150 µm electrodes - as thin as a human hair - for minimal skin disruption.

Double Pulse Technology

Gentle penetration via controlled thermal pulses, minimizing trauma and discomfort.

Patient Comfort

No numbing required (for facial treatments), with minimal downtime or discomfort.

Anatomy-Driven Booster Design

Boosters optimized for each treatment area: 1 mm for the face and 2 mm for the body, with enhancers that double delivery depth.

FROM FACIAL MUSCLES TO EVERY MUSCLE

QUICK, VISIBLE RESULTS.

60 LUMENIS
YEARS PUSHING BOUNDARIES

triLIFT 2.0

BY LUMENIS

Indications for use:

The triLift™ system is intended for dermatological procedures requiring ablation and resurfacing of the skin when using triFX™ Energy (Applicator VO), as well as intended for use in dermatologic and general surgical procedures for the non-invasive treatment of mild to moderate facial wrinkles and rhytides when using TriPollar® RF Energy (Applicators 1-3). The triLift with the DMSt™ mode is intended for muscle conditioning to stimulate healthy muscles. triLift with the DMSt™ mode is not intended to be used in conjunction with therapy or treatment of medical diseases or medical conditions of any kind. triLift is intended to be operated by a trained professional who is present to monitor treatment.

Contraindications:

triLift is contraindicated for patients with a pacemaker, defibrillator, or any implanted electronic device, or metal implants in the treatment area.

Warnings and risks: Side effects may appear either at the time of treatment or shortly after. Side effects may include any of the following: prolonged or significant pain, damage to natural skin texture (blister, burn), excessive skin redness (erythema), excessive swelling (edema), fragile skin bruising, excessive itching, change of pigmentation (hyperpigmentation or hypopigmentation), scarring, transient skin breakouts such as acne and pimples. For a complete list of contraindications, please refer to the User Manual.

About Lumenis®

Lumenis is a global leader in the medical aesthetic market and is a world-renowned expert in developing and commercializing innovative energy-based technologies, including Laser, Intense Pulsed Light (IPL) and Radio-Frequency (RF).

For over 60 years, Lumenis' ground-breaking products have redefined medical treatments and set technological and clinical gold standards, revolutionizing existing treatment methods and creating solutions for previous untreatable conditions.
